SUMMARY

Recent graduate in B.E. (Robotics and AI) with hands-on experience in SQL, MERN, Docker, and Version Control. Solved around 500 questions across platforms like LeetCode, GFG, and CodeChef. Holds a HackerRank SQL Gold Badge (670+ points) and has a strong foundation in building full-stack and scalable applications. Seeking an entry-level Software Developer role. .

EDUCATION

- Bangalore Institute of Technology** Bengaluru, India
 - Bachelor of Engineering - Robotics and Artificial Intelligence; GPA: 8.6* Dec 2022 - June 2026
 - Courses: Machine Learning, Artificial Intelligence, Natural Language Processing, Data Structures, Computer Networks*

SKILLS SUMMARY

- Languages:** C++, JavaScript, SQL
- Frameworks:** NodeJS, ReactJS, ExpressJS
- Tools:** Kubernetes, Docker, GIT, Supabase, MySQL, MongoDB
- Platforms:** : Linux, Web, Windows, AWS
- Soft Skills :** Leadership, Event Management, Public Speaking, Time Management

EXPERIENCE

- Full Stack Developer Intern - Statslane** March 2026 – May 2026
 - Intern*
 - Role:** Worked on both the frontend and backend of the Statslane project, contributing across the full stack.
 - Responsibilities:** Designed the webpage and enhanced the UI, styled components for an attractive page layout, and implemented backend logic for the infrastructure. Tech: Next.js, React.js, Express.js, Node.js, Material UI, Tailwind CSS.
- Joint Secretary - Rotaract District 3191** July 2024 – June 2025
 - Student (Full-time)*
 - Role:** Worked as the Joint Secretary of the Rotaract Club of Bangalore Institute of Technology.
 - Responsibilities:** Helped in maintaining club work and supported organizing different club events.

PROJECTS

- SaaS Sentry- (Backend Development, Cloud Monitoring System)** : Developed a scalable backend system to monitor cloud resource usage and costs, integrating AWS services like EC2 and CloudWatch with automated cron jobs for tracking and alerts. Implemented secure authentication using JWT and bcrypt. **Tech:** Node.js, Express.js, TypeScript, Prisma, Supabase, AWS, React .
- Chess Game- (Web Development, Real-Time Systems)**): Built a real-time multiplayer chess platform with WebSocket-based communication, enabling live gameplay and spectator mode. Designed a fully responsive UI without external frameworks. **Tech:** HTML, CSS, JavaScript, Bootstrap, Node.js, Express.js, Socket.io
- Gesturely- ASL Translator (Computer Vision, Deep Learning)** : Developed a real-time American Sign Language recognition system using a fine-tuned MobileNet model, capable of processing both image and video inputs via an interactive Streamlit application. **Tech:** Python, PyTorch, OpenCV, Streamlit, MobileNet, Gemini API.
- Smart Bookmarks- (Full-Stack Web Application, Real-Time Systems)** : Built a secure, real-time bookmark management platform with Google OAuth authentication, enabling users to organize and access links with tag-based categorization across devices. Implemented Row-Level Security (RLS) for user-isolated data access and integrated Supabase Realtime for instant UI updates without polling. **Tech:** Next.js (App Router), TypeScript, Supabase (PostgreSQL, Auth, Realtime), Tailwind CSS, Vercel.

CERTIFICATIONS

- HackerRank SQL – Gold Badge (Database Querying, Aggregations, Joins)**: Achieved Gold level (670+ points) on HackerRank SQL, demonstrating advanced proficiency in complex queries, window functions, subqueries, and database optimization. **Tech:** SQL, Joins, Aggregations, Window Functions, Subqueries (2024).
- JNCIA – Cloud Certification (Cloud Computing, Networking)**: Industry-recognized certification by Juniper Networks validating foundational knowledge of cloud infrastructure, networking concepts, and deployment models. **Tech:** Cloud Architecture, Networking Fundamentals, Virtualization (2025).

ACHIEVEMENTS

- Software Engineer Intern Certificate** (Problem Solving, SQL, Software Engineering) – January 2026
- Google Summer of Code (GSoC) 2026**: Contributed to an open-source organization with 6–7 pull requests merged by maintainers.
- Smart India Hackathon**: Participated in SIH 2024 and SIH 2025; successfully qualified for the first level.
- Solved 500+ DSA problems across LeetCode, GeeksforGeeks, and CodeChef.

VOLUNTEER EXPERIENCE

- Student Welfare & Skill Development Head at Robo Cell** Bangalore, India
 - Conducted offline technical & soft-skills training impacting over 300 students.* 2024–25
